§ 1952.163 Compliance staffing benchmarks.

Under the terms of the 1978 Court Order in *AFL-CIO v. Marshall*, compliance staffing levels (benchmarks) necessary for a “fully effective” enforcement program were required to be established for each State operating an approved State plan. In September 1984, Iowa, in conjunction with OSHA, completed a reassessment of the levels initially established in 1980 and proposed revised compliance staffing benchmarks of 16 safety and 13 health compliance officers. After opportunity for public comment and service on the AFL-CIO, the Assistant Secretary approved these revised staffing requirements effective July 2, 1985.

[50 FR 27243, July 2, 1985]

§ 1952.164 Final approval determination.

(a) In accordance with section 18(e) of the Act and procedures in 29 CFR part 1902, and after determination that the State met the “fully effective” compliance staffing benchmarks as revised in 1984 in response to a Court Order in *AFL-CIO v. Marshall* (CA 74-406), and was satisfactorily providing reports to OSHA through participation in the Federal-State Unified Management Information System, the Assistant Secretary evaluated actual operations under the Iowa State plan for a period of at least one year following certification of completion of developmental steps (41 FR 39027). Based on the 18(e) Evaluation Report for the period of October 1982 through March 1984, and after opportunity for public comment, the Assistant Secretary determined that in operation, the State of Iowa occupational safety and health program is at least as effective as the Federal program in providing safe and healthful employment and places of employment and meets the criteria for final State plan approval in section 18(e) of the Act and implementing regulations at 29 CFR part 1902. Accordingly, the

Iowa plan was granted final approval and concurrent Federal enforcement authority was relinquished under section 18(e) of the Act effective July 2, 1985.

(b) Except as otherwise noted, the plan which has received final approval covers all activities of employers and all places of employment in Iowa. The plan does not cover private sector maritime employment; Federal government-owned, contractor-operated military/munitions facilities; Federal government employers and employees; the U.S. Postal Service (USPS), including USPS employees, and contract employees and contractor-operated facilities engaged in USPS mail operations; bridge construction projects spanning the Mississippi and Missouri Rivers between Iowa and other States; the enforcement of the field sanitation standard, 29 CFR 1928.110, and the enforcement of the temporary labor camps standard, 29 CFR 1910.142, with respect to any agricultural establishment where employees are engaged in “agricultural employment” within the meaning of the Migrant and Seasonal Agricultural Worker Protection Act, 29 U.S.C. 1802(3), regardless of the number of employees, including employees engaged in hand packing of produce into containers, whether done on the ground, on a moving machine, or in a temporary packing shed, except that Iowa retains enforcement responsibility over agricultural temporary labor camps for employees engaged in egg, poultry, or red meat production, or the post-harvest processing of agricultural or horticultural commodities.

(c) Iowa is required to maintain a State program which is at least as effective as operations under the Federal program; to submit plan supplements in accordance with 29 CFR part 1953; to allocate sufficient safety and health enforcement staff to meet the benchmarks for State staffing established by the U.S. Department of Labor, or any revisions to those benchmarks; and, to furnish such reports in such form as the Assistant Secretary may from time to time require.
